**BRIDGE REPAIRS AND LANE RESTRICTION ON NH 101-A IN NASHUA**  
***DAYTIME LANE RESTRICTION FOR TWO DAYS***

The New Hampshire Department of Transportation announces bridge joint repairs requiring lane restrictions will take place on the NH Route 101-A bridge over the F.E. Everett Turnpike in Nashua.

The work is scheduled to begin Thursday, September 13, 2001.

A New Hampshire Department of Transportation crew will restrict daytime traffic by closing one lane in each direction from 9:00 a.m. to 3:00 p.m. starting September 13. The restriction is expected to be in place for two days or until the work is complete. Traffic will be returned to normal patterns after work hours each day.

Plans are to use warning signs and cones to guide vehicles through the work area. In the event of adverse weather, the start of the work may be delayed until the next suitable workday.

Motorists traveling on NH Route 101-A in Nashua area are asked to use caution when driving through the work zone as workers and equipment will be present. Minor delays may be encountered.
